Lump in breast?

Yes  No

Ulceration?

Yes  No

Nipple retraction/distortion?

Yes  No

Skin dimpling/puckering?

Yes  No

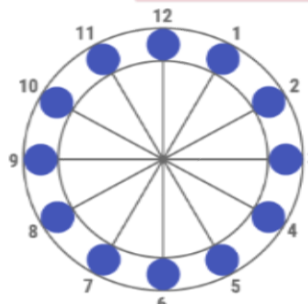

Discharge from nipple?

Yes  No

- The user needs to mark the symptoms to yes or no as answered by the patient.
- The visual examination needs to be done and mark the affected areas on the figure mentioned on the portal.
- In case of any positive symptoms or affected areas detected the patient needs to be referred to higher facility for further investigations.

# Screening – Cervical Cancer

○ Negative	○ Positive	○ Suspicious of cancer
No aceto-white lesions without definite margins	Distinct, opaque aceto-white area	Obvious growth or ulcer in the cervix. Aceto-white area may not be visible because of bleeding
Transparent lesions or faint patchy lesions	Margin should be well defined, may or may not be raised	
Nabothian cysts becoming aceto-white	Abnormality close to the squamo-columnar junction in the transformation zone and not far away from the os	
Faint line like aceto-whitening at the junction of columnar and squamous epithelium	Entire cervix becomes densely white after the application of acetic acid	
Faint aceto-white lesions far away from the transformation zone	Strikingly dense acetowhite areas are seen in the columnar epithelium	

External Genitalia Healthy  
 Yes  No

Per speculum examination :

Polyp <input type="radio"/> Yes <input type="radio"/> No	Ectopy (Erosion) <input type="radio"/> Yes <input type="radio"/> No	Hypertrophy <input type="radio"/> Yes <input type="radio"/> No
Excessive Discharge <input type="radio"/> Yes <input type="radio"/> No	Prolapse Uterus <input type="radio"/> Yes <input type="radio"/> No	Bleeds on Touch <input type="radio"/> Yes <input type="radio"/> No
Unhealthy Cervix <input type="radio"/> Yes <input type="radio"/> No	Suspicious looking Cervix <input type="radio"/> Yes <input type="radio"/> No	Frank Malignancy or Growth on the Cervix <input type="radio"/> Yes <input type="radio"/> No
Others <input type="radio"/> Yes <input type="radio"/> No		

Bimanual Examination  
 Select

Other Findings  
 Yes  No

- The user needs to mark the symptoms as yes or no as answered by the patient.
- If the SHC user is not VIA trained, then the patient needs to be referred to the higher facility.
- The screening will be completed at the higher facility by the VIA trained SN or MO.

Gender  
Female

Date of Birth 01/01/1972  OR Year of Birth 1972

Update

# Link ABHA Number

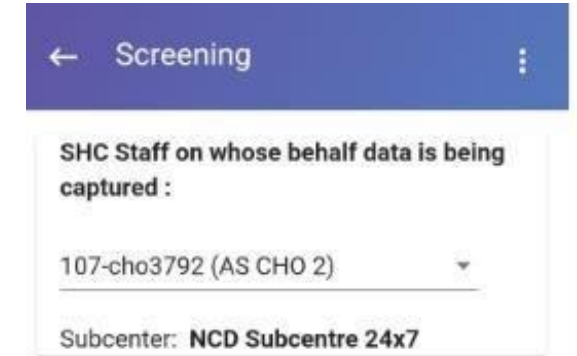

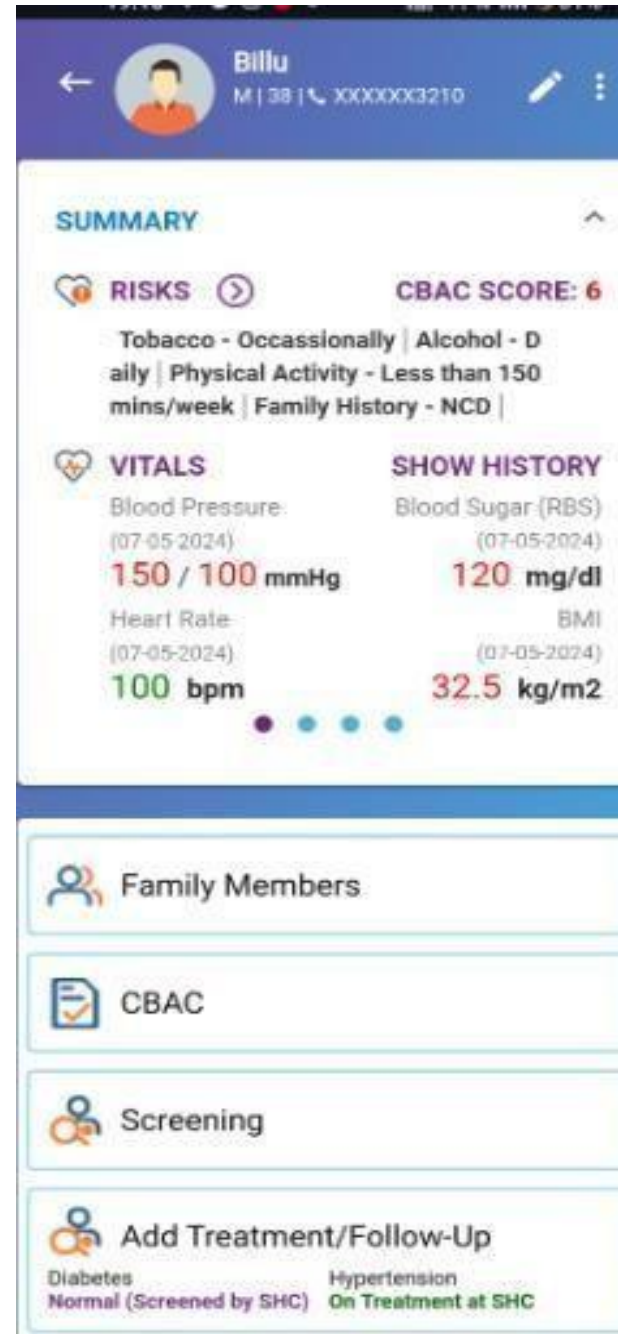

- To Link ABHA number,**
- Enter Aadhaar number
  - Verify Name, Date / Year of Birth, Gender shown exactly as per Aadhaar
  - Click on all the check boxes (Consent)
  - Click on Submit

The image displays three sequential screenshots of the ABHA linking process:

- Update Profile:** Shows the 'Update Profile' screen with a 'Detailed' checkbox checked. The 'ABHA Num' tab is selected. A message states: 'Providing or creating ABHA Number is a voluntary process. NCD related services will be provided irrespective of creating or linking ABHA Number'. Below this, there is a question 'ABHA Number available?' with 'Yes' selected. A purple 'LINK ABHA Number' button is at the bottom.
- To validate ABHA Number, verify below details:** This screen contains several input fields: 'Full Name' (filled with 'Billu'), 'Gender' (filled with 'Male'), 'Year of Birth' (filled with '1986'), and 'Name of Village' (filled with 'AS Village 1'). Below these is a dropdown menu for 'Type of ABHA Number\*' with 'ABHA Number' selected. Another input field for 'ABHA Address' and a field for 'ABHA Number\*' are also present.
- I hereby declare that:** This screen features a declaration checkbox and text: 'I am voluntarily sharing my Aadhaar Number / Virtual ID issued by the Unique Identification Authority of India ("UIDAI"), and my demographic information for the purpose of creating an Ayushman Bharat Health Account number ("ABHA number") and Ayushman Bharat Health Account address ("ABHA Address"). I authorize NHA to use my Aadhaar number / Virtual ID for performing Aadhaar based authentication with UIDAI as per the provisions of the Aadhaar'.

# Screening – All Diseases

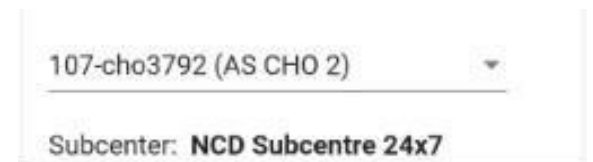

- Screening for HTN DM and Cancers on the Mobile Online App (PWA app) is same as the online portal.
- Any symptoms observed as positive or if the readings are high the patient needs to be referred to higher facility for further investigation.
- For known cases of Hypertension and Diabetes the add treatment/follow up can be done by CHO user after teleconsultation.

Click on section to view/enter screening information:

\* Personal Examination is mandatory to add disease screening.

Click on section to view/enter screening information:

**THANK YOU**
